SECTION 1: IDENTIFICATION OF THE MATERIAL AND SUPPLIER

1.1 Product identifier
Trade name: Decis Options® Insecticide
Product code (UVP): 05952077

1.2 Relevant identified uses of the substance or mixture and uses advised against
Use: Insecticide

1.3 Details of the supplier of the safety data sheet
Supplier: Bayer Cropscience Pty Ltd
ABN 87 000 226 022
Level 1, 8 Redfern Road
3123 Hawthorn East
Victoria
Australia
Telephone: (03) 9248 6888
Telefax: (03) 9248 6800
Responsible Department: 1800 804 479 Technical Information Service
Website: www.crop.bayer.com.au

1.4 Emergency telephone no.
Emergency telephone no.: 1800 033 111 IXOM Operations Pty Ltd

SECTION 2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture
Classification in accordance with Australian GHS Regulation
Acute toxicity: Category 4
H302 Harmful if swallowed.
Acute toxicity: Category 4
H332 Harmful if inhaled.
Skin irritation: Category 2
H315 Causes skin irritation.
Serious eye damage: Category 1
H318 Causes serious eye damage.
Carcinogenicity: Category 2
H351 Suspected of causing cancer.
Aspiration hazard: Category 1
H304 May be fatal if swallowed and enters airways.
Acute aquatic toxicity: Category 1
H400 Very toxic to aquatic life.
Chronic aquatic toxicity: Category 1
H410 Very toxic to aquatic life with long lasting effects.
2.2 Label elements

Hazard label for supply/use required.

Hazardous components which must be listed on the label:

- Deltamethrin
- Solvent Naphtha (petroleum), heavy aromatic

Signal word: Danger

Hazard statements

- H302 Harmful if swallowed.
- H332 Harmful if inhaled.
- H315 Causes skin irritation.
- H318 Causes serious eye damage.
- H351 Suspected of causing cancer.
- H304 May be fatal if swallowed and enters airways.

Precautionary statements

- P202 Do not handle until all safety precautions have been read and understood.
- P261 Avoid breathing mist and spray.
- P264 Wash hands thoroughly after handling.
- P270 Do not eat, drink or smoke when using this product.
- P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.
- P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor/ physician.
- P330 Rinse mouth.
- P331 Do NOT induce vomiting.
- P302 + P352 IF ON SKIN: Wash with plenty of water/ soap.
- P332 + P313 If skin irritation occurs: Get medical advice/ attention.
- P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- P312 Call a POISON CENTER/doctor/physician if you feel unwell.
- P305 + P351 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P310 Immediately call a POISON CENTER/doctor/ physician.
- P362 Take off contaminated clothing and wash before reuse.
- P405 Store locked up.
- P501 Dispose of contents/container in accordance with local regulation.

2.3 Other hazards

No other hazards known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical nature

Deltamethrin 27.5 g/l
Emulsifiable concentrate (EC)

<table>

SECTION 4. FIRST AID MEASURES

If poisoning occurs, immediately contact a doctor or Poisons Information Centre (telephone 13 11 26), and follow the advice given. Show this Safety Data Sheet to the doctor.

4.1 Description of first aid measures

Inhalation  Move the victim to fresh air and keep at rest. Oxygen or artificial respiration if needed. Call a physician or poison control center immediately.

Skin contact  Take off contaminated clothing and shoes immediately. Wash off thoroughly with plenty of soap and water, if available with polyethyleneglycol 400, subsequently rinse with water. In case of skin irritation, application of oils or lotions containing vitamin E may be considered. Clean contaminated clothing and shoes before re-use or discard if they cannot be thoroughly cleaned. If symptoms persist, call a physician.

Eye contact  Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Apply soothing eye drops, if needed anaesthetic eye drops. Call a physician or poison control center immediately.

Ingestion  Rinse out mouth and give water in small sips to drink. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms  Local: Skin and eye paraesthesia which may be severe. Skin, eye and mucous membrane irritation. Inhalation may provoke the following symptoms: Irritation. Systemic: Restlessness, Gastrointestinal discomfort, Tremors, Dizziness, Headache, Apathy, Nausea, Vomiting, Abdominal pain, Muscular fasciculation, Pulmonary oedema, Unconsciousness, Convulsions, Coma

4.3 Indication of any immediate medical attention and special treatment needed

Risks  Pyrethroid poisoning should not be confused with carbamate or organophosphate poisoning.

Treatment  Gastric lavage is not normally required. However, if a significant amount (more than a mouthful) has been ingested, administer activated charcoal and sodium sulphate. In case of aspiration intubation and bronchial lavage should be considered. There is no specific antidote. Treat symptomatically. In case of skin irritation, application of oils or lotions containing vitamin E may be considered. In case of convulsions, a benzodiazepine (e.g. diazepam) should be given according to standard regimens. Contraindication: atropine. Recovery is spontaneous and without sequelae. Watch for pulmonary edema, which may develop in serious cases of poisoning even after 24-48 hours. At first sign of pulmonary edema, the patient should be placed in an oxygen tent and treated symptomatically.
SECTION 5. FIRE FIGHTING MEASURES

5.1 Extinguishing media
Suitable Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

5.2 Special hazards arising from the substance or mixture
In the event of fire the following may be released: Carbon dioxide (CO2), Carbon monoxide (CO), Nitrogen oxides (NOx), Hydrogen bromide (HBr)

5.3 Advice for firefighters
Special protective equipment for firefighters Wear self-contained breathing apparatus and protective suit.
Further information Remove product from areas of fire, or otherwise cool containers with water in order to avoid pressure being built up due to heat. Whenever possible, contain fire-fighting water by diking area with sand or earth. Do not allow run-off from fire fighting to enter drains or water courses.

Hazchem Code •3Z

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
Precautions Avoid contact with spilled product or contaminated surfaces. When dealing with a spillage do not eat, drink or smoke. Remove all sources of ignition. Use personal protective equipment. Keep unauthorized people away.

6.2 Environmental precautions
Contain contaminated water and fire fighting water. Do not allow to get into surface water, drains and ground water. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 Methods and materials for containment and cleaning up
Methods for cleaning up Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal. Clean contaminated floors and objects thoroughly, observing environmental regulations.

6.4 Reference to other sections
Information regarding safe handling, see section 7.
Information regarding personal protective equipment, see section 8.
Information regarding waste disposal, see section 13.

SECTION 7. HANDLING AND STORAGE

7.1 Precautions for safe handling
Advice on safe handling Use only in area provided with appropriate exhaust ventilation.
Advice on protection against fire and explosion
Keep away from heat and sources of ignition.

Hygiene measures
Wash hands before breaks and immediately after handling the product. After each day's use, wash gloves, face shield or goggles and contaminated clothing. Remove soiled clothing immediately and clean thoroughly before using again. Before removing gloves clean them with soap and water.

7.2 Conditions for safe storage, including any incompatibilities
Requirements for storage areas and containers
Keep out of the reach of children. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from direct sunlight.

Advice on common storage
Keep away from food, drink and animal feedingstuffs.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters

*OES BCS: Internal Bayer AG, Crop Science Division "Occupational Exposure Standard"

8.2 Exposure controls

Respiratory protection
Use respiratory protection for organic vapours.

Hand protection
PVC or nitrile rubber gloves

Eye protection
Face-shield

Skin and body protection
Wear two layers of clothing wherever possible. Polyester/cotton or cotton overalls should be worn under chemical protection suit and should be professionally laundered frequently.

General protective measures
In normal use and handling conditions please refer to the label and/or leaflet. In all other cases the above mentioned recommendations would apply.

Engineering Controls
Advice on safe handling
Use only in area provided with appropriate exhaust ventilation.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties
Form
Liquid, clear
Colour  
light yellow

Odour  
aromatic

pH  
4.5 - 7.0 at 5 % (23 °C) (deionized water)

Flash point  
67 °C

Ignition temperature  
> 400 °C

Upper explosion limit  
7 %(V)
The data refer to the solvent.

Lower explosion limit  
0.6 %(V)
The data refer to the solvent.

Vapour pressure  
3 hPa at 38 °C
The data refer to the solvent.

Density  
ca. 0.91 g/cm³ at 20 °C

Water solubility  
emulsifiable

Partition coefficient: n-octanol/water  
Deltamethrin: log Pow: 6.4 at 25 °C

9.2 Other information  
Further safety related physical-chemical data are not known.

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity

Thermal decomposition  
Stable under normal conditions.

10.2 Chemical stability  
Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions  
No hazardous reactions when stored and handled according to prescribed instructions.

10.4 Conditions to avoid  
Heat, flames and sparks.

10.5 Incompatible materials  
Oxidizing agents, Strong acids, Bases

10.6 Hazardous decomposition products  
Thermal decomposition can lead to release of:
- Oxides of carbon
- Bromine compounds
- Nitrogen oxides (NOx)

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Acute oral toxicity  
LD50 (Rat) 535 mg/kg
Test conducted with a similar formulation.

Acute inhalation toxicity  
LC50 (Rat) > 11.3 mg/l
Exposure time: 6 h
Test conducted with a similar formulation.
Acute dermal toxicity
LD50 (Rabbit) > 2,000 mg/kg
Test conducted with a similar formulation.

Skin irritation
slight irritation (Rabbit)
Test conducted with a similar formulation.

Eye irritation
Irritating to eyes. (Rabbit)
Test conducted with a similar formulation.

Sensitisation
Non-sensitizing. (Guinea pig)
Test conducted with a similar formulation.

Assessment mutagenicity
Deltamethrin was not mutagenic or genotoxic in a battery of in vitro and in vivo tests.

Assessment carcinogenicity
Deltamethrin was not carcinogenic in lifetime feeding studies in rats and mice.
Naphthalene caused an increased incidence of tumours after chronic inhalation of high vapour concentrations in the following organ: Respiratory Tract. The tumours seen with naphthalene were caused through a non-genotoxic mechanism, which is not relevant at low doses.

Assessment toxicity to reproduction
Deltamethrin did not cause reproductive toxicity in a two-generation study in rats.

Assessment developmental toxicity
Deltamethrin caused developmental toxicity only at dose levels toxic to the dams. The developmental effects seen with Deltamethrin are related to maternal toxicity.

Assessment STOT Specific target organ toxicity – single exposure
Deltamethrin: Based on available data, the classification criteria are not met.

Assessment STOT Specific target organ toxicity – repeated exposure
Deltamethrin caused neurobehavioral effects and/or neuropathological changes in animal studies. The toxic effects of Deltamethrin are related to transient hyperactivity typical for pyrethroid neurotoxicity.

Aspiration hazard
May be fatal if swallowed and enters airways.

Information on likely routes of exposure
Harmful if inhaled. May cause irritation of the mucous membranes.
Irritating to skin. May cause sensitisation by skin contact. Can cause irritation to the skin resulting in effects such as burning and/or tingling sensation. A moderate skin irritant to abraded skin.
Severe eye irritation.
Harmful if swallowed. Small amounts of the solvent in this product aspirated into the respiratory system during ingestion or vomiting may cause mild to severe pulmonary injury.

Early onset symptoms related to exposure
Refer to Section 4

Delayed health effects from exposure
Refer to Section 11

Exposure levels and health effects
Refer to Section 4
Interactive effects
Not known

When specific chemical data is not available
Not applicable

Mixture of chemicals
Refer to Section 2.1

Further information
No further toxicological information is available.

**SECTION 12. ECOLOGICAL INFORMATION**

12.1 Toxicity

**Toxicity to fish**
LC50 (Oncorhynchus mykiss (rainbow trout)) 0.00091 mg/l
Exposure time: 96 h
The value mentioned relates to the active ingredient deltamethrin.

LC50 (Lepomis macrochirus (Bluegill sunfish)) 0.0014 mg/l
Exposure time: 96 h
The value mentioned relates to the active ingredient deltamethrin.

**Toxicity to aquatic invertebrates**
EC50 (Daphnia (water flea)) 0.00056 mg/l
Exposure time: 48 h
The value mentioned relates to the active ingredient deltamethrin.

**Toxicity to aquatic plants**
EC50 (Raphidocelis subcapitata (freshwater green alga)) > 9.1 mg/l
Exposure time: 96 h
The value mentioned relates to the active ingredient deltamethrin.

**Toxicity to other organisms**
(Anas platyrhynchos (Mallard duck)) > 4,640 mg/kg
The value mentioned relates to the active ingredient deltamethrin.

(apis mellifera (bees))
The value mentioned relates to the active ingredient deltamethrin.
Toxic to bees.

12.2 Persistence and degradability

**Biodegradability**
Deltamethrin:
Not rapidly biodegradable

**Koc**
Deltamethrin: Koc: 10240000

12.3 Bioaccumulative potential

**Bioaccumulation**
Deltamethrin: Bioconcentration factor (BCF) 1,400
Does not bioaccumulate.

12.4 Mobility in soil

**Mobility in soil**
Deltamethrin: Immobile in soil

12.5 Other adverse effects

**Additional ecological information**
No other effects to be mentioned.
### SECTION 13. DISPOSAL CONSIDERATIONS

Refillable containers:
If tamper evident seals are broken prior to initial use then the integrity of the contents cannot be assured. Empty container by pumping through dry-break connection system. Do not attempt to breach the valve system or the filling point, or contaminate the container with water or other products. Ensure that the coupler, pump, meter and hoses are disconnected, triple rinsed and drained after each use. When empty, or contents no longer required, return the container to the point of purchase. This container remains the property of Bayer CropScience Pty Ltd.

Metal drums and plastic containers:
Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.
Do not reuse container for any other purpose.

SECTION 15. REGULATORY INFORMATION

Registered according to the Agricultural and Veterinary Chemicals Code Act 1994
Australian Pesticides and Veterinary Medicines Authority approval number: 51849

SUSMP classification (Poison Schedule)
Schedule 6 (Standard for the Uniform Scheduling of Medicines and Poisons)

SECTION 16. OTHER INFORMATION

Trademark information
Decis Options® is a Registered Trademark of the Bayer Group.

This SDS summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.

Our responsibility for products sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available on request.
